Turning Project Managers Into Project Leaders

The Project Leadership Academy is a series of interactive courses designed to teach more than essential project management skills. These courses also teach the more elusive soft skills that can cost your company hard dollars.

Courses can be taken individually, or in conjunction with other courses from the program. We offer public seminar courses around the globe, and you can also host your own courses, in your own facility, with our expert instructors.

MASTER THE SOFT SKILLS TO ENSURE

- TEAM MEMBERS ARE FULLY ENGAGED
- PRODUCTIVITY IS INCREASED
- STAFF TURNOVER IS DECREASED.
- PROJECTS ARE DELIVERED ON TIME.
- PROJECTS ARE SET UP FOR SUCCESS.
- PROJECT BRIEFINGS BECOME EASY.
- PROGRESS REPORTS HIT THE MARK.
- MEETINGS ARE EFFICIENT.
- CLIENTS ASK FOR YOU EVERY TIME.
- YOUR PROJECTS ARE PROFITABLE.
- YOUR TEAMS PREDICT OUTCOMES.
- YOUR TEAMS DELIVER OUTCOMES.

Written from a project management lifecycle perspective, *The Attitude Check: Lessons In Leadership* takes you through each phase of leadership from building your team, to getting clear expectations and buy in, and enhancing your team's performance. The book continues through dealing with conflict, making tough decisions, and making up lost productivity, as well as many more other topics. The final chapter in the book deals with succession planning, and as we know in leadership, that often brings us back to the beginning.

The Attitude Check: Lessons In Leadership is available in all retail outlets and attendees of our public seminars receive a free signed copy.
